

# PAL PROPERTY DEVELOPMENT *ssings*

East Dundee   Location Assets   Development Opportunities   Area Demographics   Business & Employment   Transportation/Utilities

Located directly on Route 72, the Pal Property offers 120 acres of land ready and available for development. The community vision for the site includes retailers on the Route 72 frontage taking advantage of the 70,000 cars passing the site daily. Further into the site, the plan calls for office and technology companies utilizing the site's proximity to business resources in and around the area. Future development on another 100 acres north includes residential development.

Interested developers and users are encouraged to contact Peter Gagliano at (312) 455-1181 for more information.
